**VOLUNTARY ANNOUNCEMENT
LATEST DEVELOPMENT REGARDING
BITCOIN MINING BUSINESS**

This announcement is made voluntarily by DL Holdings Group Limited (the “**Company**”, together with its subsidiaries, the “**Group**”) to inform the shareholders and potential investors of the Company of the latest business development of the Group.

References are made to the announcements of the Company dated 14 December 2025 and 30 December 2025 (the “**Monthly Update Announcements**”) in relation to, among other things, the latest progress in the Bitcoin mining business of the Group. Unless defined otherwise, capitalised terms used herein shall have the same meanings as those defined in the Monthly Update Announcements.

The board of directors of the Company (the “**Board**”) is pleased to update its shareholders and the market on the latest progress in its Bitcoin mining business.

During the period from 1 December 2025 to 30 December 2025 (the “**Period**”), Bitcoin (“**BTC**”) production totalled 25.2107 BTC, representing an average daily production of approximately 0.8404 BTC per day. Effective hashrate (mining-pool basis) increased from approximately 0.84 EH/s as at 1 December 2025 to approximately 2.83 EH/s as at 30 December 2025, and peak daily effective hashrate during the period was approximately 2.83 EH/s.

Bitcoin holdings during the Period were derived solely from mining production. There were no other sources of Bitcoin and no dispositions of Bitcoin during the Period. The opening Bitcoin balance as at 1 December 2025 was 5.9807 BTC (representing the entirety of Bitcoin produced during the period from 12 November 2025 through 30 November 2025). After adding 25.2107 BTC produced during the Period and with no dispositions, the closing Bitcoin balance as at 30 December 2025 was 31.1914 BTC.

Based on the Group’s current internal estimates and prevailing Bitcoin network conditions, the 9,148 units of the Existing BTC Mining Machines, with a total hashrate of approximately 3.993 EH/s, are expected to correspond to an indicative combined daily production of approximately 1.72 BTC. The Group currently forecasts 2026 full-year Bitcoin production of approximately 600 to 700 BTC (subject to network difficulty, Bitcoin price, uptime and other operating conditions).

The Group will publish monthly updates on its Bitcoin mining operations to inform shareholders regarding the latest status and performance of the Bitcoin mining business of the Group. These progresses underline the Group’s commitment to developing a sustainable, transparent and operationally grounded Bitcoin mining business as part of its broader digital finance strategy, while continuing to implement prudent risk management and high standards of corporate governance.

Shareholders and potential investors are advised to exercise caution when dealing in the securities of the Company.
